Below is a representation of the type of food purchased for local agencies. This food is added to other foods provided by the Montana

CHICKEN NOODLE SOUP 24/10 oz
VEGETABLE SOUP 24/10 oz
CHILI NO BEANS 24/15 oz
TURKEY CHILI 12/15 oz
FRUIT COCKTAIL 24/15 oz
MAC & CHEESE 24/7.25 oz
PEANUT BUTTER 12/18 oz
DICED PEARS 24/300#
PEANUT BUTTER 12/18 oz
BEEF STEW 12/20 oz
SPAGEHTTI IN SAUCE 24/15 oz

CREAM OF MUSHROOM 24/10 oz VEGETABLE SOUP 24/10 oz CHICKEN NOODLE SOUP 24/10 oz TOMATO SOUP 24/10 oz HAMBURGER HELPER 12/6.8 oz FRUIT RINGS CEREAL 70/1.12 oz CANNED PEARS 24/15 oz FRUIT COCKTAIL 24/15 oz BEETS 12/15 oz MAC & CHEESE 24/7.25 oz BEEF STEW 12/20 oz CHUNK TUNA 48/6 oz PEACHES 24/15 oz GREEN BEANS 24/14.5 o; STRAWBERRY PRESERVE! APPLE JUICE 40/6.75 oz WHOLE KERNAL CORN 24 MIXED VEGETABLES 24/1 CHICKEN & DUMPLING 2 PEACH JELLY 24/16 oz PULLTOP LASAGNA 24/7. SLICED BEETS (NO SALT) We propose to spend \$25,000 to maximize participation in the existing public nutrition programs and improve food self-sufficiency in local communities.

A proven and effective method of reducing the rate of increase in emergency food demands is through participation in the public food programs. These programs take strain off of the local charitable community and bring in federal dollars to our local economies through grocery stores and farmers markets.

We have minimal funding now and are able to cover staff time; however, we need funding support to cover other costs to mobilize community action through local coalitions.

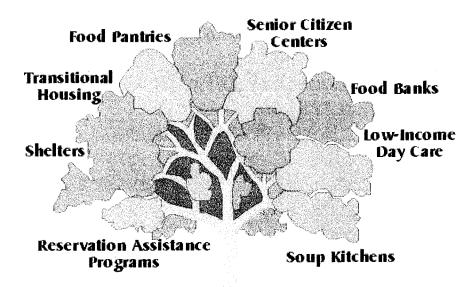

\$25,000 per year will create long lasting solutions through the following ways:

1. Staff travel to 10 counties, 3 trips each

\$5,600

- 2. Trainings for county coalition groups in 10 counties. Trainings would be 2 days in each county and consist of coalition building, assessment conducting training, and informational presentations on how each of the nutrition programs work and how they can be maximized at the community level. Funds would cover travel scholarships to attend as well as meeting costs for 20 people for 2 days in each of 10 counties (\$1,500 per county) \$15,000
- 3. Printing. Includes staff printing of materials for meetings (\$300) as well as assisting coalitions with printing of informational brochures needed for county outreach (\$200 per county). **\$2,300**
- 4. Telephone and conference calls (6 calls each for 10 counties \$1,500) & staff cell phone. \$2,100

Total \$25,000

THE MONTANA FOOD BANK NETWORK

The Montana Food Bank Network (MFBN) plays an important role for Montana charities. Its mission is to provide food from local, statewide, regional and national sources to support 190 emergency feeding programs throughout our state. The Network provides food to local food pantries, soup kitchens, youth programs, rehabilitation programs, senior centers, low-income daycare centers, and reservation assistance program. With a fleet of four trucks travelling the nation and across Montana, the Network is able to collect food donations from major manufacturers nationwide and distribute them through our network of emergency food providers. In addition, the Network facilitates the distribution of large donations of food from Montana growers and distributors. In 2001, the Montana Food Bank Network partnered with several state agencies and local and national growers in a canning project at Montana State Prison. This project provides a significant amount of processed food for the emergency food system through canning, repackaging and meat processing. The Montana Food Bank Network is a member of the national food bank network, Feeding America linking Montana with national food manufacturers.
